

Smart City Login

Smart City Login

Username: [Don't have an account?](#)

Password: [Forgot password?](#)

The page features a minimalist cityscape background with black silhouettes of buildings, including a church with a steeple and a smaller house. The background is light gray.

Login page 2 Mockup. Displays design for main login page, allowing user to enter username and password, links to registration, and forgot password. The background image is simplistic and easy on the eyes.

Login page 2 Mockup. Displays design for main login page, allowing user to enter username and password, links to registration, and forgot password. The background image is an actual image right in the heart of the city, but can distract from the GUI features' visibility.

Smart City for Students

City Information

Colleges

Libraries

After a student logs in, they are greeted with this homepage, allowing them the selection of city information, colleges and libraries (as specified by the client).

Smart City for Students

Parks

Zoos

Malls

After pressing the city information selection, a whole other range of selection is greeted to the student user (six in total), regarding city information. A scroll bar is needed to navigate to the other icons, three per row preferably.

Smart City for Students

Restaurants

Museums

City Map

After pressing the city information selection, a whole other range of selection is greeted to the student user (six in total), regarding city information. A scroll bar is needed to navigate to the other icons, three per row preferably.
